S P E C I F I C A T I O N S

Ease of operation is the main feature of our Easy-Lam roll laminator. The easy-to-use design makes the operator's job simpler with features such as:

- **EASY LOADING** Plenty of clearance is allowed for film loading. No more burnt knuckles when "hot loading."
- **EASY-TO-USE CONTROLS** Since pressure, speed, and roll tension are preset, the laminator requires very little instruction to use.
- **ADJUSTABLE HEAT KNOB** Heat is easily adjustable for different materials.
- **REVERSE SWITCH** Quickly clears any wrap-arounds.
- **HEAVY-DUTY DC MOTOR** For long term durability.

Easy-Lam is designed to laminate with either .0015" or .003" gauge film. The 27" width capacity allows you to laminate those items that can't be accommodated in a conventional 25" machine. Easy-Lam is cUL approved.

Easy-Lam (Part No. BA-EZ27)
