## S P E C I F I C A T I O N S

The patented Tandem+ is a combination laminator/thermal binder that incorporates a two roller pouch laminator along with a thermal binding station and cooling station. It is the only machine on the market that will do both:

- **LAMINATING** Laminates pouches up to 9" wide and up to 5 mils (each side) in thickness.
- **THERMAL BINDING** Thermal binds letter size or A4 size covers up to 1/2".

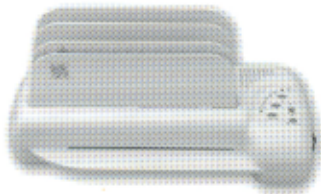

### THERMAL BINDING: EASY AS 1,2,3

1. Determine what size binding cover you require for your number of pages.
2. Insert the pages into the binding cover and place the cover into the heat slot.
3. After the heating process is complete, place the binding cover into the cooling slot.

The Tandem+ is UL approved.
