QUIKFINISH™ SHREDDERSHARK™ SERIES EXPANDS WITH THREE NEW MODELS

Banner American Products Introduces Three New ShredderShark™ Shredders

(Temecula, California)...The growing need for identity protection has fueled the launch of three new ShredderShark™ shredders. Banner American Products, Inc., a leading producer and distributor of laminators, shredders, foiling and binding equipment for home or office recently announced the introduction of its ShredderShark™ 12, 18 and 30 sheet machines.

All three machines meet the need for shredding items such as credit and debit cards, CDs and DVDs in addition to confidential documents. Model SH18CDCC will shred up to 18 sheets in one pass. Designed as a cross cut model, the SH18CDCC features RANTECH technology comprising three random cross cut shred sizes. Model SH30CDSC will rip through 30 sheets. This machine is designed to strip cut and is perfect for shredding a lot of sheets in one pass. The SH5312CD is a 12 sheet cross cut model also featuring RANTECH technology shredding items into three sizes. The SH5312CD features a 12 hour continuous run motor providing excellent performance for extended periods of time.

All three models come with easy-roll casters, large 7.85 gallon pull-out basket and separate catch tray for credit cards, CDs and DVDs.

ShredderShark™ shredders are now available online at Amazon.com, Kmart.com, CompUSA.com, Sears.com, Home Shopping Network, ShopNBC.com, Target.com, Walgreens.com and Micro Center stores as well as through numerous independent dealers. For more information on ShredderShark™ Shredders, contact Alan Parkhill, President, Banner American Products, Inc. (951) 296-9780.
